

## 8.2 MISSING CASH!

**Objective:** Solve missing number problems.

### Instructions

1. Print out the resource cards (or alternatively make some similar question cards of your own)
2. Spread the cards out all around your activity area, face down
3. Run and collect one card and bring it back to your starting point. If your activity area is quite small, or indoors, travel on all fours across to a card and back
4. Solve the problem on the card. Whatever the answer is, do a physical exercise that many times, such as bouncing a ball or star jumps
5. Continue until all the cards have been collected and problems solved.

### Challenge

With a partner: who is quickest to run, collect and solve 5 questions and do 5 answers-worth of star jumps? If you are on your own, time yourself doing 5 questions and activities, then see if you can beat your time with the next 5.

$$38p + ?p = 74p - 9p$$

$$£0.86 - ?p = £0.37 + ?p$$

$$£1.41 - ?p = £1.19 + ?p$$

$$£2.67 + ?p = £3.42$$

$$87p - 19p = ?p + 32p$$

$$£2.52 - 36p = ?p + £1.67$$

$$£4.64 + ?p = £5.21$$

$$£0.72 - ?p = £0.34 + ?$$

$$£2.88 - ?p = £1.36 + £1.19$$

$$£1.92 + ?p = £2.21 - £0.16$$

## Homework Guide Parents

### Dear Parents

Welcome to the Teach Active homework activities. Here you will find dozens of different activities for each year group, all designed to complement your child's learning in school, in a fun and active way.

Simply click on homework, select your child's year group, then the area of maths and a choice of activities will be there. You can download them as PDFs, print them, or view them on your tablet or device.

We have tried to allow for different settings and home environments. Most activities can take place indoors or outdoors. There is a minimal amount of equipment needed. This will either be things you will have at home, such as dice or a stopwatch on your phone, or cards and help sheets that can be printed off at school or home. Number cards could even be made at home. Generally, the bigger the space your child can use, the better – they'll be getting more exercise that way.

Each Homework Activity Card has a key learning objective, a fun title, what you need, detailed instructions, an extension (challenge) activity, what to record for the teacher, a healthy fact, survey question and exercise challenge. Plenty to get on with!

Your teacher may set particular activities for the class or your child regularly, or you may choose to select different activities for your child as the time and circumstances suit, maybe in the school holidays, for example.

### Happy Homeworking!
